Private Period Pole Program, City of University Park

Doster Lighting, Inc. introduces a period pole beautification program that the City of University Park has officially accepted.

Residential and business property owners in University Park have the ability to purchase and donate period lighting poles to the street corners and as accent lighting along the streets.

The owner becomes a donor and is able to use the donation as a charitable write off for tax purposes.

Outdoors...  
Illuminated.

Doster Lighting, Inc. has been enhancing the beauty and value of distinctive Dallas homes with aesthetic landscape and moonlighting for over 25 years. We have clients across the country, from Jupiter Island, Florida to Napa Valley, California.

We believe that we do more than install lighting. We feel we are changing the way people live. Many people make a sizeable investment in their landscaping, and our Landscape Lighting extends our client's home to include the outdoors, creating a paradise to be thoroughly enjoyed.

Doster Lighting was founded by Jim Doster. With over 25 years experience in the Landscape Lighting industry, we have the experience necessary to design a sensational system matched to your needs. We are committed to innovative designs, quality installation, and superior customer service. Our stellar reputation is the result of hundreds of ecstatic clients, the majority of which are referrals.
